

Give Yourself Health

Strength

and

Beauty—

by Using Vibratory Massage at Home

These priceless gifts are within your grasp—*why don't you take them?* Health, strength and beauty—all the things you need to make life worth living—*yours if you want them.* Why now get them NOW?

Vibration makes you *master* of your own health and happiness. Any doctor will tell you that nearly every human ill can be traced right back to *poor circulation.* Vibration gets right at the cause of things—the very root of the trouble. One trial will prove its wonderful effects in a most convincing manner. It will send the rich, red, cleansing blood humming through your arteries, veins and capillaries *right to the place you want it,* or all over your body if you choose. It chases away aches and pains like magic, *soothes* jangled nerves, *tones up* tired ones, fills you full with the joy of *perfect* health and *abounding* energy.

As a *beauty* aid, Vibration is without a rival. It builds up thin places, reduces over-plumpness, drives away wrinkles, tones up the scalp and hair, besides aiding in a hundred other ways—and *its results are permanent.*

ARNOLD MASSAGE VIBRATOR

(The Original—Costs Less than Imitations)

The Arnold Vibrator enables you to give yourself all the real benefits that are claimed for Swedish Massage, Osteopathy, etc., right at home and in the privacy of your own room. No specialists or masseurs with their high fees for you to pay. No need to sit around an office or waiting room. With an ARNOLD in your home, you can give

yourself a treatment whenever you need it, absolutely at your own convenience. Every member of your family can share in its benefits, and you will be surprised to find how often it will be in demand. It will save its own cost in the average family, through the saving in doctor's bills, and in a very short time. And best of all—it saves drugging and doping, because it makes use of Nature's own method.

How to Judge a Vibrator

Don't let anybody fool you on the vibrator question. You be your own judge. Here are the facts:

We own the original *basic* patents, taken out June 24, 1902, on a Portable Electric Massage Vibrator. The wonderful success of the ARNOLD has tempted other manufacturers to enter the field with inferior imitations and infringements.

Naturally, you want the best. Some so-called "vibrators" are so heavy and cumbersome that they are impractical and dangerous to use. Others are nothing but a toy motor in a case, so weak in power as to give only a slight tickling sensation. Others shake the hand of the operator much more than the parts under treatment. We'll give you a chance to prove every claim we make for the ARNOLD by actual trial and without any obligation on your part whatever. If anybody else tries to sell you a vibrator, make them give you the same offer. Test them out side by side. We'll be content to abide by your decision.

Special Reduced Prices

If you are familiar with the prices asked for ordinary vibrators, you will be amazed to find out *how much less it costs to own the genuine, original ARNOLD.* The cost of the ARNOLD represents *pure value and nothing else.* It is manufactured in the largest vibrator factory in the world. Experts of years of experience supervise every operation. Nothing but the very finest materials are used, and every possible improvement has been incorporated. Our margin of profit is absurdly low—we may be compelled to advance our prices at any time. But if you act at once, you may still get a genuine ARNOLD at the absolutely rock-bottom price.

Ask Any Dealer for a Free Demonstration

Any of the dealers in the list below will gladly arrange to give you a convincing demonstration of the ARNOLD without obligating you in the slightest. If none of them is near you, write us and find out how you can get a 10 days' free trial, right in your own home.
